## Version 16.3.7 Release Notes 06/25/2024

### About/Contact Info

Version 16.3.7 is the latest update to MicroBiz for Windows. For release notes on a previous release of MicroBiz for Windows, please check our updates page online at <https://microbiz.com/windows-support-release-notes/>.

You can reach us through our website at [www.microbiz.com](http://www.microbiz.com) or by phone:

- **Technical Support:** 702-749-5353 Option 1
- **Sales:** 702-749-5353 Option 2

### Before Installation

- Please familiarize yourself with the contents of these release notes for details regarding this version of MicroBiz, including any limitations.
- You must be on MicroBiz for Windows version 9.0 or above to apply this update. Please call our support group to arrange a manual update if you are on a version older than version 9.0.
- As with any change to your MicroBiz software system, it is very important to complete a backup of your local and system files paths (BizWin and Business directories by default) prior to beginning an upgrade.

### Highlights

Please view the list below for more information on fixes and improvements added to v16.3.7

## Bug Fixes

The following issues have been addressed in this release:

- 3179-Alternate SKU's remain after deletion of Primary SKU
- 3229-Edited prices should not be discounted when "do not recalc manually entered prices" is checked.
- 3358-Exporting Multi-Page Reports to Excel is Taking an Extremely Long Time
